Independent liberty.

It is the characteristic of the maximum that it is strong, and this series labelled as AIMGAIN "純VIP-GT" proposes sports image that is a run by adopting a big duct design and D fuser as never before. I seemed to uncover the identity that an upper grade saloon was avant garde to originally have in. The charm that only passes dwells in universality beyond the VIP, the world in the style. Independent freedom from restraint. It is "to receive nobody's restraint, control, and to have a thing only in own thought".

May it not be said that it is the words that are good to AIMGAIN which continues shaking in freaks in the scene through AIMGAIN style. This 純VIP GT series includes charm and the force that I only think so of to be it.
